

CEIAG monitoring, evaluation and review

Careers Compass+

The government gave all schools until 2020 to implement all aspects of the Gatsby Benchmarks and we monitor our work and effectiveness against these benchmarks and against the CDI Framework (2021) . Braidwood Scholl will continue to use the Careers Compass to help plan, monitor and evaluate actions towards these benchmarks. Regular updates of progress will be fed back to senior leaders and the Governing Board. The school is also committed to ensuring that parents are regularly updated with the careers activities their child has taken part in over the academic year. Compass + will support us to do this.

Careers and Enterprise Company:

The school continues to work closely with the Careers and Enterprise company and as a result receive support and guidance from a dedicated SEN Carers and Enterprise Co-ordinator, Claire Donnelly and a Careers Enterprise Advisor, Julie Venn-Morton. As part of this support the school are required to meet government deadlines where the Compass Tracker is completed. This is completed throughout the year and feeds into an action plan that is regularly updated.

We invite all stakeholders (pupils, parents, staff, employers etc) to comment on our CEIAG provision and continue to update and improve our offer based on their feedback.

We have a staff who are working towards nationally recognised CDI qualifications to aid us in creating an up to date CEIAG programme that is fit for purpose.
